

<UICollectionViewCellUICollectionViewDelegateFlowLayout>

<UICollectionViewDataSource>

FNPartnerGoodsCateListView()

```
graph LR; A[FNPartnerGoodsCateListView()] --> B["<UICollectionViewCellUICollectionViewDelegateFlowLayout>"]; A --> C["<UICollectionViewDataSource>"];
```

The diagram illustrates a class named `FNPartnerGoodsCateListView()` implementing two protocols. Two blue arrows point from the class box to the protocol boxes. The first arrow points to the `<UICollectionViewCellUICollectionViewDelegateFlowLayout>` protocol, and the second arrow points to the `<UICollectionViewDataSource>` protocol.
