

<UICollectionViewCellUICollectionViewDelegateFlowLayout>

<UICollectionViewDataSource>

FNBrandShopCell()

```
graph LR; A[FNBrandShopCell()] --> B["<UICollectionViewCellUICollectionViewDelegateFlowLayout>"]; A --> C["<UICollectionViewDataSource>"];
```

The diagram illustrates the relationship between the `FNBrandShopCell()` class and two UICollectionView protocols. The `FNBrandShopCell()` class, represented by a gray box, has two blue arrows pointing to the protocol boxes on the left. The top protocol is `<UICollectionViewCellUICollectionViewDelegateFlowLayout>`, and the bottom protocol is `<UICollectionViewDataSource>`. Both protocol boxes are white with black borders.
