

<UITableViewDataSource>

<UITableViewDelegate>

ProductCVViewController()

```
graph BT; P[ProductCVViewController()] --> D[<UITableViewDataSource>]; P --> U[<UITableViewDelegate>];
```

The diagram illustrates the relationship between a custom view controller and two UIKit protocols. At the bottom, a gray box labeled 'ProductCVViewController()' has two blue arrows pointing upwards. One arrow points to a white box labeled '<UITableViewDataSource>' on the left, and the other points to a white box labeled '<UITableViewDelegate>' on the right. This indicates that the 'ProductCVViewController()' class implements both the 'UITableViewDataSource' and 'UITableViewDelegate' protocols.
