

<UITableViewDelegate>

<UITableViewDataSource>

JMFilterListView()

```
graph BT; JMFilterListView() --> UITableViewDelegate; JMFilterListView() --> UITableViewDataSource;
```

The diagram illustrates the relationship between the JMFilterListView() class and two UIKit protocols. At the bottom, a gray box labeled JMFilterListView() has two blue arrows pointing upwards. One arrow points to a white box labeled <UITableViewDelegate> on the left, and the other points to a white box labeled <UITableViewDataSource> on the right. This indicates that JMFilterListView() conforms to both protocols.
