

<UITableViewDataSource>

<UITableViewDelegate>

JMMemberUpgradeController()

```
graph BT; JMMemberUpgradeController() --> UITableViewDataSource; JMMemberUpgradeController() --> UITableViewDelegate;
```

The diagram illustrates the relationship between the JMMemberUpgradeController() class and two UIKit protocols. At the bottom, a gray box labeled 'JMMemberUpgradeController()' has two blue arrows pointing upwards. One arrow points to a white box labeled '<UITableViewDataSource>' on the left, and the other points to a white box labeled '<UITableViewDelegate>' on the right. This indicates that the JMMemberUpgradeController() class implements both the UITableViewDataSource and UITableViewDelegate protocols.
