

<UICollectionViewDelegate
FlowLayout>

<UICollectionViewDataSource>

FNJDFeaturedListController()

```
graph BT; FNJDFeaturedListController() --> UICollectionViewDelegateFlowLayout; FNJDFeaturedListController() --> UICollectionViewDataSource;
```

The diagram illustrates the inheritance of protocols from a custom class. At the bottom, a box labeled 'FNJDFeaturedListController()' has two blue arrows pointing upwards. One arrow points to a box labeled '<UICollectionViewDelegateFlowLayout>' on the left, and the other points to a box labeled '<UICollectionViewDataSource>' on the right. This indicates that the 'FNJDFeaturedListController()' class implements both the 'UICollectionViewDelegateFlowLayout' and 'UICollectionViewDataSource' protocols.
