

<MenuCellClickDelegate>

<SDCycleScrollViewDelegate>

FNHomeHeaderView()

```
graph BT; FNHomeHeaderView() --> MenuCellClickDelegate; FNHomeHeaderView() --> SDCycleScrollViewDelegate;
```

The diagram illustrates the implementation of two protocols by a class. At the bottom, a box labeled 'FNHomeHeaderView()' has two blue arrows pointing upwards. The left arrow points to a box labeled '<MenuCellClickDelegate>', and the right arrow points to a box labeled '<SDCycleScrollViewDelegate>'. This indicates that 'FNHomeHeaderView()' conforms to both protocols.
