

<UITextViewDelegate>

<UITextFieldDelegate>

FeedBackViewController()

```
graph BT; FVC[FeedBackViewController()] --> UITextViewDelegate[<UITextViewDelegate>]; FVC --> UITextFieldDelegate[<UITextFieldDelegate>];
```

The diagram illustrates a class hierarchy where the `FeedBackViewController()` class inherits from two delegate protocols: `<UITextViewDelegate>` and `<UITextFieldDelegate>`. This is represented by two blue arrows pointing from the base class box to the two protocol boxes above it.
