

<UICollectionViewCellUICollectionView
ViewDataSource>

<UICollectionViewDelegate
FlowLayout>

FNMineSignUpHeader()

```
graph LR; A[FNMineSignUpHeader()] --> B["<UICollectionViewCellUICollectionViewViewDataSource>"]; A --> C["<UICollectionViewDelegateFlowLayout>"]
```

The diagram illustrates the relationships between the `FNMineSignUpHeader()` class and two UICollectionView protocols. The `FNMineSignUpHeader()` class, represented by a grey box, has two outgoing blue arrows. One arrow points to the `<UICollectionViewCellUICollectionViewViewDataSource>` protocol box, and the other points to the `<UICollectionViewDelegateFlowLayout>` protocol box. Both protocol boxes are white with black borders.
